FALL ARREST AND WORK POSITIONING KIT

FALL ARREST AND WORK POSITIONING KIT is a ready-to-use kit designed to protect against falls and for positioning at a workstation. It is optimized for work at height requiring connection to metal structures or large-diameter cables and bars. The kit contains a VOLT fall arrest and work positioning harness, a 150 cm ABSORBICA-Y double lanyard with energy absorber and MGO large-opening connectors, a 2-meter GRILLON HOOK adjustable work positioning lanyard, two OK TRIACT-LOCK carabiners, two CAPTIV positioning bars, and a BUCKET bag. It is available in two sizes.

Short Description Fall arrest and work positioning kit with VOLT harness, ABSORBICA-Y 150 MGO lanyard, and GRILLON HOOK

Selling Points

- Simple to use, and effective:
 - rapid-donning VOLT harness: waistbelt is equipped with a FAST LT PLUS automatic buckle for quick and easy opening and closing without the need to readjust. Leg loops feature FAST LT automatic buckles, making the harness easy to don with feet on the ground
 - ABSORBICA-Y lanyard with elasticized arms to avoid hindering progression
 - stowage system for the MGO connectors on fall arrest lanyards, on each shoulder strap. In the event of a fall, the system releases the MGO connectors and allows the absorber to be deployed
 - GRILLON HOOK lanyard with fine adjustment system allows length to be precisely adjusted for comfortable positioning at a workstation
 - BUCKET bag allows the kit to be stored and its contents identified
- Contents of kit:
 - a VOLT fall arrest and work positioning harness, European version
 - a 150 cm ABSORBICA-Y double lanyard with energy absorber (European version) and MGO large-opening connectors
 - a 2-meter GRILLON HOOK adjustable work positioning lanyard (European version)
 - two OK TRIACT-LOCK carabiners and two CAPTIV positioning bars
 - a 25-liter BUCKET bag
- Available in two harness sizes (sizes 1 and 2)
