

The logo for WENTEX, featuring the brand name in a bold, white, sans-serif font inside a black rounded rectangle with a white border. The background of the entire image is a photograph of a large indoor event space with a complex metal truss ceiling, numerous stage lights, and a large audience seated on the floor. The lighting is a mix of red and blue, creating a dramatic atmosphere.

## WENTEX® Textile Products | Edge Treatment

### Top finishes

#### Eyelets with tie ribbon

The most common option to mount curtains is using the attached ribbons. Tie the ribbons around the (truss) construction to mount the curtains.

#### Eyelets with WENTEX® Rapido

Another easy way to mount the curtains is by using the WENTEX® Rapido. The Rapido can be attached to the eyelets in the curtain and the Rapido makes it easy to mount the curtains to a truss construction.

#### Eyelets with Eurotrack runner

Our Eurotrack runners are equipped with a carabiner clasp which makes it easy to attach the runners to our curtains. The runners can then easily be mounted to our Eurotrack rails.

#### Velcro

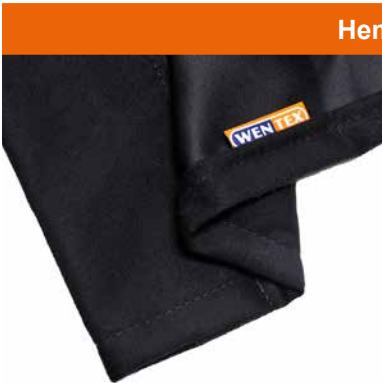

Our WENTEX® Pipes & Drapes curtains are fitted with loop Velcro on the top, to ensure easy mounting to our WENTEX® Pipes & Drapes system. All our Pipes & Drapes curtains are pleated.

### Side finishes

#### Hem

### Bottom finishes

#### Open hem

All our curtains are finished with an open hem on the bottom. This open hem is 10 cm wide and if necessary it can be filled with a tube to weigh the curtain down. When the curtain is mounted in a pleated way, a flexible chain can be used to weigh the curtain down.
