

*Rugged case for professional
equipment protection - IP67*

EAN: 8717748625212

The Vaultis Waterproof Backpack Case 485S is a durable, watertight and impact-resistant protective case designed to safeguard sensitive equipment in demanding environments. Certified to IP67, STANAG 4280, DEF STAN 81-41, MIL-STD 810 and ATA300, it offers a high level of protection against water, dust, shocks and extreme conditions. With a 30-litre internal capacity, the backpack case provides ample space for tools, electronics, photographic equipment, industrial instruments and other valuable gear. The case includes convoluted foam in the lid and cubed pick-and-pluck foam in the bottom, allowing the interior to be customised for a perfect fit to your equipment.

Its robust polypropylene construction, automatic pressure-release valve and reliable double-throw latches ensure secure performance in transportation, fieldwork and professional use. The handle is load-tested and ergonomically designed for comfortable carrying, and the case features padlock points, a shoulder-strap attachment option and a stackable interlocking design for efficient storage and transport.

Special features:

- IP67 waterproof protective case
- Foam interior included (lid + pick-and-pluck base)
- Automatic pressure-release valve
- Double-throw latches & soft-grip handle
- Padlock and shoulder-strap points; stackable design

Specifications:
